ABOUT CHILDREN'S CANCER NETWORK

Children's Cancer Network supports children and families throughout their cancer journey with programs and services designed to provide financial assistance, promote education, encourage healthy lifestyles and create an awareness of issues they face related to childhood cancer. Children's Cancer Network is committed to helping children and families dealing with the stressful and uncertain times that begin with initial diagnosis and often continue for years thereafter. We address the highest priority needs at the time when they are needed most. Our intention is for each family to realize they are not alone in their fight against cancer. Giving hope to children and families is our goal. To learn more about about Children's Cancer Network, please visit our website at childrenscancernetwork.org.
